

# AMS1000 Forté Air System Surrounds

EVERY PRODUCT CUSTOM MADE

Forté Air Mattress Surrounds provide additional width and/or length to pressure relieving air support surfaces enabling the Air Support Surface to adapt to almost any bed base or configuration. High specification foam enhances the stability of the support surface and provide additional patient and caregiver assistance for positioning and transfers. Covering materials and construction methods match the clinical performance characteristics of the Air Support Surface to ensure that pressure relief and patient skin protection is not compromised. Speak with Forté Healthcare or your distributor today to enquire further.

# Hospital Wards Aged Care Facilities Home Care

### SUPPORTIVE FOAM BASE

- Provides additional protection to air cells
- ✓ Should failure occur within air mattress, foam provides additional protection between patients body and bed base
- Eliminates the requirement for an additional mattress beneath the surround making the support surface easier to clean

# **PROFILE STABILISING SIDES**

- Enables ease of primary patient care
- Facilitates patient transfers
- Encourages central patient positioning

### **AIR SUPPLY PROTECTION** SHEATH

- Protects against fluid ingress into the cover
- Easy to clean and manage infection control risks

# 4-WAY STRETCH, VAPOUR PERMEABLE, PRESSURE CARE UPPER

- Breathable
- Replaces air mattress cover
- ✓ High specification to provide maximum shear relief
- Available in Premiflex Grade
- ✓ Wipe clean
- Fire retardant, anti-microbial, resistant to body fluids

# **360° ZIPPER AND WATERFALL INGRESS PROTECTION FLAP**

- ✓ Full removable upper cover enables easy installation of air mattress on-site
- Easy access for internal mattress adjustment/repair
- ✓ Double coated Premiflex Waterfall flap provides protection against fluid ingress. Backing is sealed for ease of cleaning

# **COMPATIBLE WITH CPR FUNCTION**

- ✔ Custom made to provide access to the CPR function. Note the access style differs by air mattress brand
- Cover print ensures visibility for training and in-service purposes

# **Excellent Value, Enhances Functionality**

✓ Unique hinge points allow mattress to easily conform to varied bed positions

- HEAVY DUTY PVC BASE
- Provides enhanced durability
- ✓ Delivers great durability & performance
- ✓ Fire retardant, anti-microbial, resistant to body fluids

# AMS5000 Forté Air **Overlay Surrounds**

Forté Air Overlay Surrounds provide additional width and/or length to pressure relieving air support surfaces enabling the air support surface to adapt to almost any bed base or configuration. High specification foam enhances the stability of the support surface and provide additional patient and caregiver assistance for positioning and transfers. A firm foam base eliminates the need for a secondary mattress underneath the Air Overlay. Covering materials and construction methods match the clinical performance characteristics of the Air Overlay Support Surface to ensure that pressure relief and patient skin protection is not compromised. Speak with Forté Healthcare or your distributor today to enquire further.

# Sovereign AMS6000

Alternating Support Surface Surrounds

Forté Sovereign Alternating Support Surface Surrounds build out an alternating surface to suit larger bed frames. Popular for patients seeking to match the clinical function of an alternating surface (full replacement or overlay), the Sovereign Surrounds widen the clinical care surface providing enhanced care flexibility, repositioning options and quality of life. The Sovereign Surround utilities the proven Sovereign Foam Core Structure, optimising care performance and comfort. Covering materials and construction methods match the clinical performance characteristics of the Air Support Surface to ensure that pressure relief and patient skin protection is not compromised. Speak with Forté Healthcare or your distributor today to enquire further.

  - circulation providing a cooler sleep surface

Provides protection against 'bottoming-out' during transfer, repositioning and

# Icon AMS7000

Alternating Air Support Surface Surround

The AMS7000 Icon range provides additional width and/or length to Alternating Support Surfaces to meet bed surface size requirements. Utilising the proven Forté Icon Triple Layer Pressure Care Foam Core, the AMS7000 series is a versatile surface that enhances the functionality of an Alternating Surface. The AMS7000 icon range is an effective partner mattress, allowing 2 persons to utilise the surface with the integration of the Air System. An extensive variety of configurations are available providing for a wide range of patient needs and requirements. The Icon AMS7000 is manufactured to suit both Full Replacement and Overlay Surfaces.

### VISCO-GRADE, UPPER IMMERSION LAYER

- Alleviates localised pressure points
- Provides maximum contact with patient for distribution of interface pressure
- ✓ High temperature stability to deliver consistent immersion, performance and comfort
- ✓ Visco-elastic cell structure provides low-shear surface
